

Empowering our Customers to Provide the Best Possible Gaming Experience

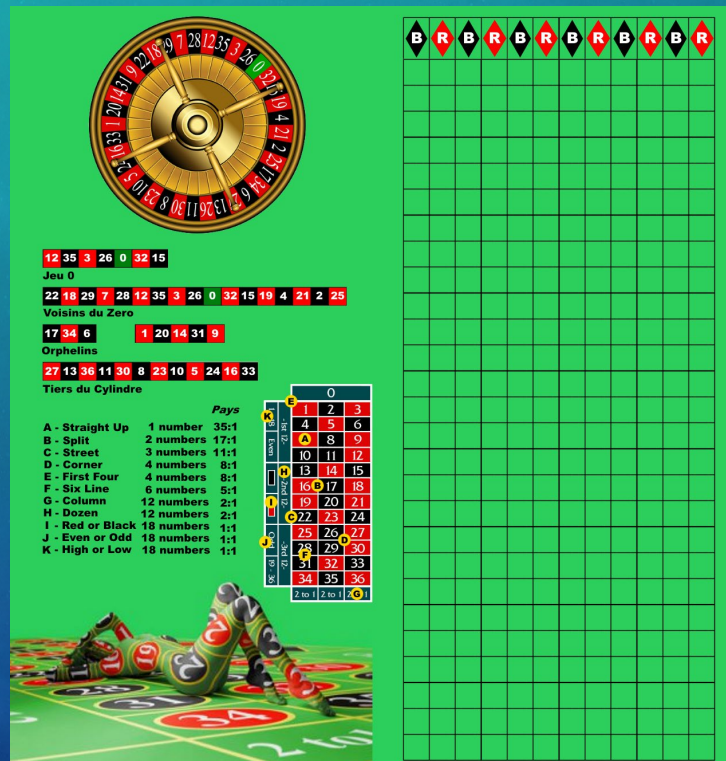

Your Players still using a pen and paper to track the Winning Numbers?

Casino patrons are 'demanding' that the operators provide roulette statistics on displays.

Display solutions exist, but are costly and require brand new wheels.

www.aces.co.za

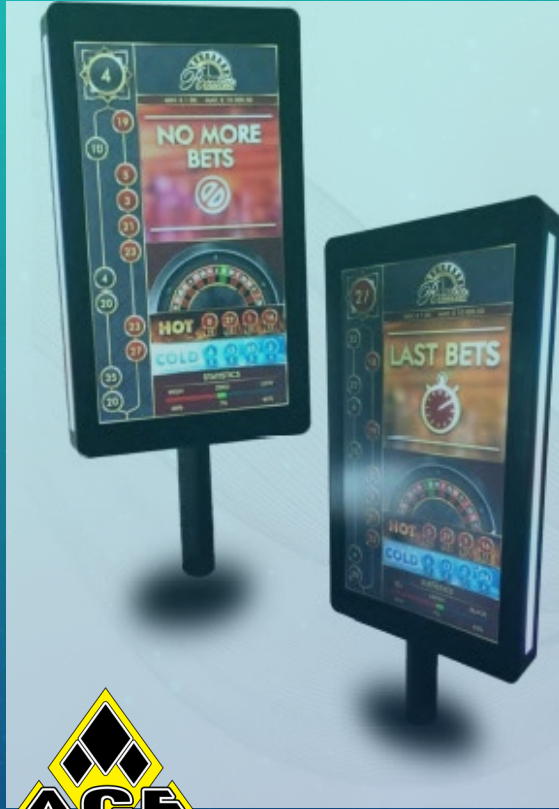

Your Wheel is still in excellent condition but old technology.

To provide real-time stats you need a wheel with sensors AND a display solution.

Display solutions exist, but are costly and require brand new wheels or expensive readers.

ACES Winning Number Display

The ACES Winning Number Display offers an attractive display of live roulette statistics at a fraction of the cost of a new wheel and current display options.

If you don't have a Winning Number Display OR you have an old wheel with no sensors, we have you covered with the ACES Winning Number Display!

No need to spend a fortune on a new wheel or on the display system.

The ACES WND works with your existing roulette equipment.

ACES Winning Number Display
